Prices are subject to change.

You can purchase GoldSim using a credit card (Visa/MasterCard/Discover), or via a Purchase Order. If you select to use a Purchase Order, upon receipt of the Order we will send an Invoice, which can then be paid via check or wire transfer. Invoices are due and payable upon receipt, and an interest charge of 1% per month will be charged for payments received more than 30 days following receipt of invoice.

Floating licenses allow multiple users to access one or more licenses via a network. For example, a 3-person floating license would allow up to 3 people from anywhere in the organization to simultaneously access GoldSim. The cost for a floating license is 150% of the standard license fee. For example, a 1-person floating license for GoldSim Pro would be 150% \* \$3950 = \$5925.

Price discounts for multi-user licenses and site-wide licenses are available. Contact us for details.
